In re Application of :  
KOYAMA et al. : LETTER REGARDING  
Application No. 10/629,108 : PATENT TERM ADJUSTMENT  
Filed: 07/28/2003 :  
Atty Docket No. 03338CIP/HG :

This letter is in response to the "LETTER RE: PATENT TERM ADJUSTMENT," filed November 25, 2008. Pursuant to applicants' duty of good faith and candor to the Office, applicants request that the determination of patent term adjustment under 35 U.S.C. 154(b) be reviewed for accuracy.

The request for review of the initial Determination of Patent Term Adjustment is GRANTED to the extent indicated herein.

The Office has updated the PAIR screen to reflect that the correct Patent Term Adjustment (PTA) determination at the time of the mailing of the notice of allowance is 146 days. A copy of the updated PAIR screen, showing the correct determination, is enclosed.

On November 11, 2008, the Office mailed the Determination of Patent Term Adjustment under 35 U.S.C. 154(b) in the above-identified application. The Notice stated that the patent term adjustment is 289 days. On November 25, 2008, applicants submitted the instant comment.

Applicants request that the Office recalculate the period of patent term adjustment. Specifically, applicants direct the Office's attention to the filing of the amendment under 37 CFR

1.312 on May 14, 2008, as well as the filing of the petition to withdraw from issue on October 8, 2008.

A review of the application history confirms that determination of patent term adjustment under 35 U.S.C. 154(b) is incorrect. It is undisputed that the period of reduction of 30 days pursuant to 37 CFR 1.704 for the filing of a response on May 3, 2006, is correct. However, entry of additional periods of reduction is warranted.

On May 14, 2008, applicants submitted an amendment under 37 CFR 1.312 after the mailing of a notice of allowance, which under the circumstances of this application, is a ground for reduction of patent term adjustment under 37 CFR 1.704(c)(10).<sup>1</sup> The period of adjustment should have been reduced by the lesser period of 41 days, beginning on the date the amendment under 37 CFR 1.312 was filed, May 14, 2008, and ending on the mailing date of the Office action or notice in response to the amendment, June 23, 2008. Accordingly, a period of reduction of 41 days is being entered.

Additionally, applicants should have been assessed a delay for the filing of the petition to withdraw from issue, the request for continued examination (RCE) and the IDS on October 8, 2008, after the mailing of the notice of allowance on February 20, 2008 (and after payment of the issue fee on May 15, 2008). The Office mailed a response to the petition to withdraw from issue on October 14, 2008. Accordingly, the submission of the petition to withdraw from issue after the mailing of the notice of allowance is a proper basis under 37 CFR 1.704(c)(10) for

---

<sup>1</sup> 37 CFR 1.704(c)(10) provides:

Submission of an amendment under § 1.312 or other paper after a notice of allowance has been given or mailed, in which case the period of adjustment set forth in § 1.703 shall be reduced by the lesser of:

(i) The number of days, if any, beginning on the date the amendment under § 1.312 or other paper was filed and ending on the mailing date of the Office action or notice in response to the amendment under § 1.312 or such other paper;

or

(ii) Four months;

reduction of the period of adjustment set forth in § 1.703 to the extent that the periods are not overlapping. See 37 CFR 1.704(c).

On November 18, 2008, a notice of allowance was mailed in response to the RCE and IDS filed October 8, 2008. A review of the IDS filed October 8, 2008, reveals that applicants did not include a statement under 37 CFR 1.704(d).<sup>2</sup> Thus, applicants failed to engage in reasonable efforts to conclude prosecution of the application.

Pursuant to 37 CFR 1.704(c)(10), a first period of reduction of 7 days should have been entered for the submission of the petition to withdraw from issue, counting the number of days beginning on the date the petition was filed, October 8, 2008, and ending on the mailing date of the response to the petition, October 14, 2008. Pursuant to 37 CFR 1.704(c)(10), a second period reduction of 42 should have been entered for the submission of the RCE and IDS, counting the number of days beginning on the date the RCE and IDS were filed, October 8, 2008, and ending on the mailing date of the Office action or notice in response to the RCE and IDS, November 18, 2008.

37 CFR 1.704(c) provides that "[c]ircumstances that constitute a failure of the applicant to engage in reasonable efforts to conclude processing or examination of an application ... will result in the following reduction of the period of adjustment set forth in § 1.703 to the extent that the periods are not overlapping." The first period of reduction of 7 days pursuant to 37 CFR 1.704(c)(10) totally overlaps with the second period

---

<sup>2</sup> Pursuant to 37 CFR 1.704(d):

A paper containing only an information disclosure statement in compliance with §§ 1.97 and 1.98 will not be considered a failure to engage in reasonable efforts to conclude prosecution (processing or examination) of the application under paragraphs (c)(6), (c)(8), (c)(9), or (c)(10) of this section if it is accompanied by a statement that each item of information contained in the information disclosure statement was first cited in any communication from a foreign patent office in a counterpart application and that this communication was not received by any individual designated in § 1.56(c) more than thirty days prior to the filing of the information disclosure statement. This thirty-day period is not extendable.

of reduction of 42 days. Accordingly, a single period of reduction of 42 days is being entered for these two periods of reduction.

Lastly, the record reveals that applicants should have been assessed an additional delay of 30 days pursuant to 37 CFR 1.704(c)(8).<sup>3</sup> It is undisputed that after filing a response on August 29, 2006, applicants filed Supplemental IDSs on September 21, 2006 and September 28, 2006. The record does not support a conclusion that the examiner expressly requested the filing of either Supplemental IDS. Further, a review of the Supplemental IDSs, filed September 21, 2006 and September 28, 2006, reveals that applicants did not include a proper statement under 37 CFR 1.704(d) in either Supplemental IDS. Thus, applicants failed to engage in reasonable efforts to conclude prosecution of the application. Accordingly, a period of reduction of 30 days is being entered.

It is noted that a further IDS was filed on October 24, 2008. The revised PTA should include any period of reduction for the filing of this IDS.

In view thereof, the correct patent term adjustment at the time of the mailing of the notice of allowance is **146 days** (289 days of Office delay - 143 days (30 + 30 + 41 + 42) of applicant delay).

As this letter was submitted as an advisement to the Office of an error in applicants' favor, the Office will not assess the \$200.00 fee as set forth in 37 CFR 1.18(e). The Office thanks applicant for applicants' good faith and candor in bringing this to the attention of the Office.

Applicants are reminded that any delays by the Office pursuant to 37 CFR 1.702(a)(4) and 1.702(b) and any applicant delays

---

<sup>3</sup> Pursuant 37 CFR 1.704(c)(8) provides:

Submission of a supplemental reply or other paper, other than a supplemental reply or other paper expressly requested by the examiner, after a reply has been filed, in which case the period of adjustment set forth in § 1.703 shall be reduced by the number of days, if any, beginning on the day after the date the initial reply was filed and ending on the date that the supplemental reply or other such paper was filed.

under 37 CFR 1.704(c)(10) will be calculated at the time of the issuance of the patent and applicant will be notified in the Issue Notification letter that is mailed to applicants approximately three weeks prior to issuance.

The Office of Data Management has been advised of this decision. This matter is being referred to the Office of Data Management for issuance of the patent.

Telephone inquiries specific to this matter should be directed to Christina Tartera Donnell, Senior Petitions Attorney, at (571) 272-3211.
